# How to Write an Abstract

## Summarizing your Research

# Course Projects

- *Some grading has been completed*
  - *Comments in Blackboard on graded proposals.*
  - *All projects have been reviewed & feedback given. Check yours today!*
- Next step: Update #1
  - Report template - *you will update this through the rest of the semester.*
  - Abstract writing - *helps to outline your semester plan by answering certain questions..*

# Abstract

Once upon a time, there was a big mean dragon.

He threatened the kingdom and all of the people there with his fiery breath.

Fortunately, there were some brave knights who lived in the kingdom.

Their shields and swords were the best in the land.

These weapons were fire proof and their swords were even sharper than dragons teeth.

The brave knights have trained in a land far far away and are ready to take on the terrible beast.

With the dragon gone, the kingdom will live in harmony happily ever after.

# Abstract

- 1. What is the overall problem you are trying to solve?**
- 2. Why is the problem important?**
- 3. How is your team qualified to do this work?**
- 4. What is your core technology?**
- 5. How will your technology solve the problem?**
- 6. Why is your idea feasible NOW?**
- 7. What will success look like?**

Need good examples?

Refer to papers published at AI/ML/DL conferences & journals  
(see course website for recommendations)

# Abstract

## 1. What is the overall problem you are trying to solve?

Once upon a time, there was a big mean dragon.

## 2. Why is the problem important?

He threatened the kingdom and all of the people there with his fiery breath.

## 3. How is your team qualified to do this work?

Fortunately, there were some brave knights who lived in the kingdom.

## 4. What is your core technology?

Their shields and swords were the best in the land.

## 5. How will your technology solve the problem?

These weapons were fire proof and their swords were even sharper than dragons teeth.

## 6. Why is your idea feasible NOW?

The brave knights have trained in a land far far away and are ready to take on the terrible beast.

## 7. What will success look like?

With the dragon gone, the kingdom will live in harmony happily ever after.
